Outstanding Stability
The Rebel RA is the ideal rollator for pain sensitive users suffering from arthritis, Parkinson’s or many other neurological disorders. It features separate forearm supports and large ball-bearing mounted wheels that ensure walking is easy, even on uneven or rough surfaces. The Rebel RA can be used both indoors and outdoors and features a wide assortment of accessories including a seat and basket.

Unique Handles
The Rebel RA features unique front-facing, angle adjustable handles that allow users to find the optimal handle position for comfort and stability. Adjustment is easy with integrated measurements right in the handle tube. The ergonomic design of the grips ensures even distribution of weight. The Rebel RA can also be equipped with a one-hand brake to allow a user to control hand functions on either the left or right hand side.

Adjustable Forearm Supports
The Rebel RA features very unique forearm supports that are adjustable in both height and direction. This ensures that the forearm supports can be positioned in the best possible way for user comfort and stability.

The Rebel is designed for users that find it difficult to maneuver a regular rollator or require extra support. The forearm supports are adjustable in height and angle find the optimal positioning for comfort and stability.
