

HUMAN CARE
Your Life. Your Way.

INSIGHTS – Easy access to data to deliver a huge impact

INSIGHTS provides health professionals with valuable information to improve safe patient handling practices that will result in reduced number of injuries, cost savings and optimal asset management.

INSIGHTS

Lift Interface System

The new Lift Interface System – INSIGHTS – is an easy-to-use web interface that can be connected to all Human Care overhead lifts. It facilitates cloud based storage of collected data from the lifting activities, all accessible from a computer, phone or tablet device.

INSIGHTS supports compliance and to encourages consistent utilization of the lifting equipment. This may help to reduce number of injuries, significantly reduce costs and facilitate optimal asset management.

Easy accessible facts with a huge impact - that's INSIGHTS.

Benefits for Management

Monitoring the usage of the lift equipment

INSIGHTS provides valuable information through a user friendly interface offering a comprehensive overview on the lift equipment usage.

Overall Cost Savings

By placing the focus on equipment usage compliance, facilities are able to reduce injuries which significantly reduce unnecessary costs.

Return on Investment

INSIGHTS provides visibility on asset management parameters which allows administrators to take action proactively to ensure that the intended ROI is achieved.

Benefits for caregivers

Focus on patient's care and recovery

INSIGHTS helps caregivers to keep control of the usage of ceiling lifts which allows caregivers to focus on their most important priority, their patients.

Helps reduce number of injuries

INSIGHTS helps make sure that the ceiling lifts are being used which, in turn, helps reduce the number of injuries incurred with manual lifting.

Improves safe patient handling practices

Nursing personnel are amongst the top ten occupations for work-related injuries. Proper ceiling lift utilization helps protect the caregiver and further drive SPH initiatives.

Benefits for Biomed /Maintenance

Maintenance and service made easy

Service checks can be done easily and directly from any device and are saved with a touch of a button.

Keeps control of maintenance

INSIGHTS keeps control of when the ceiling lift requires service, new batteries, firmware version updates, and much more.

Lift usage statistics

INSIGHTS provides specific statistics of lift usage for each lift which allows the opportunity to schedule equipment service in the most beneficial and time saving way.

Allow Human Care to incorporate INSIGHTS into your safe patient handling initiatives.

The ultimate goal of any Safe Patient Handling initiative is to eliminate or minimize the risk of injury to health care workers while enhancing patient safety. Hazards due to lifting, lowering or transferring can be present at any time during a given task. INSIGHTS is a tool designed to promote correct usage and ultimately reduce the number of injuries incurred while delivering patient care.

Optimal Work Environment

Overhead lifts provide high accessibility and uncluttered workspace, however, having just a lifting system available may not be enough. It is just as important to have a lift that works to improve the work environment by encouraging its users to follow safe handling practices. INSIGHTS easy to use interface makes sense to users and is easy to learn and navigate.

Included at no additional charge

Human Care offers the INSIGHTS platform at no additional charge when using our overhead lifts Altair, HeliQ and Roomer S. Human Care lift systems are discrete, flexible and efficient. It's a solution suitable for both acute and post acute care settings.
